SUMMARY

Software Developer and Open-Source Contributor with experience in Java, full-stack development, cloud technologies, and CI/CD practices. Contributed to CNCF and FOSSASIA open-source projects while building scalable applications using modern software engineering practices.

EDUCATION

Sri Shakthi Institute of Engineering and Technology

Coimbatore, India

Bachelor of Engineering

2022 – 2026

- CGPA: 8.0*

EXPERIENCE & TRAINING

Open Source - Meshery (CNCF) | [Contributions](#)

- Contributed bug fixes, UI enhancements, and CI/CD workflow improvements to Meshery (CNCF) and its Layer5 projects through collaborative open-source development.

Open Source – FOSSASIA | [Contributions](#)

- Submitted pull requests improving bugs, fixes, documentation, contributor onboarding, and project maintenance while following Git-based development and CI practices.

Rampex Technologies - MLOps Training

Coimbatore, India

- Completed intensive MLOps training focused on deploying and operationalizing machine learning systems using cloud platforms (AWS), Docker, Jenkins and CI/CD workflows.

PROJECTS

AI-Powered Resume Analyzer & ATS | [GitHub](#)

2025

- Built an AI-powered resume analyzer with resume parsing, PDF processing, and skill-matching features.
- Leveraged serverless cloud services for AI integration, authentication, storage, and deployment.
- **Tech Stack:** *React, Tailwind, Puter.js, Gemini API*

Detection of Endangered Species | [GitHub](#)

2024

- Developed an AI-based wildlife monitoring system to detect and classify endangered species from 2,000+ camera-trap images, improving accuracy in camouflage and low-light conditions.
- Containerized and deployed on AWS using Docker, Jenkins, and CI/CD pipelines for automated delivery and scalability.
- **Tech Stack:** *AWS, Docker, CI/CD, Cloud Deployment, Jenkins, LabelImg, YOLOv5*

Constitution Connect | [GitHub](#)

2025

- Built a responsive MERN-based platform to simplify constitutional articles and improve constitutional literacy.
- Integrated chatbot APIs and interactive quizzes to drive engagement and enhance user experience.
- **Tech Stack:** *MERN (MongoDB, Express.js, React, Node.js), Chatbot API, JWT, Tailwind CSS*

Hospital Management System | [GitHub](#)

2025

- Developed a Java-based Hospital Management System using Object-Oriented Programming principles and MySQL database integration.
- Implemented patient registration, doctor management, and appointment scheduling modules using JDBC and core Java.
- **Tech Stack:** *Java, MySQL, JDBC*

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, C, HTML, CSS

Backend & APIs: Node.js, Express.js, REST APIs, JDBC

Frontend: React, Tailwind CSS, Redux, Zustand

Databases: MySQL, MongoDB, Supabase

Cloud & DevOps: AWS, Docker, GitHub Actions, Jenkins, CI/CD

Tools: Git, GitHub, Postman API, Linux, n8n

Core CS Fundamentals: Object-Oriented Programming, Data Structures & Algorithms, DBMS, Software Engineering

PUBLICATIONS & CERTIFICATES

- Published research papers on software engineering and AI-based applications in peer-reviewed journals.
- CNCF Certified Meshery Contributor
- **HackerRank Certifications:** Software Engineer, Java, React
- **Scaler Certifications:** Java DSA Course
